Climate Resilience & Plastic Pollution in Nepal

How the environment is changing,
and what we can do.

creation
Envisioning the Change

Glaciers are Melting Faster

Nepal lost about 25% of glacier area between 1980–2010.

Glaciers are melting 65% faster since 2010.

Plastic Waste is Overwhelming

Plastic makes up 16% of urban waste in Nepal.

That's around 2.7 tons of plastic daily.

What Can We Do?

- ✓ Reduce plastic use
- ✓ Support local climate actions
- ✓ Protect rivers & recycle right
